

BODYMAKERS

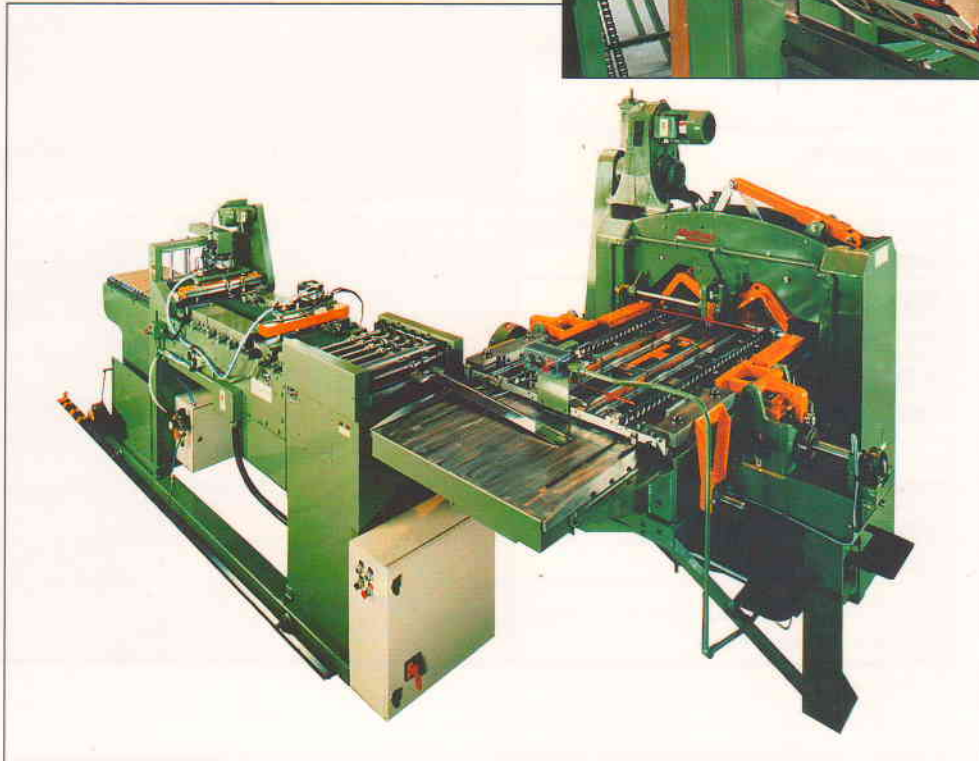

The Meltog

157 and 613

Bodymakers are custom designed for the manufacture of 3-piece cans and come either hand fed or fully automatic.

▲ Typical tooling for 613, showing expanded mandrel, forming wings and hammer blade.

▲ Fully automatic 613 with beading and notching attachments.

▲ A small sample of 3-piece cans on 157 and 613 machines.

Meltog bodymakers are recognised as world leaders for the manufacturing of a wide range of round, square, triangular, hexagonal, octagonal, oval and tapered 3-piece cans.

Meltog has an enviable reputation for its skill and ingenuity to design and manufacture tooling to create even the most complex 3-piece can bodies and machines and tooling alike are carefully profiled to facilitate rapid changeover times.
